Waka Wai Rescue

Introduction:
The purpose of this game is to inspire players to care for the precious waterways of Aotearoa New Zealand. Water (wai) is a taonga—a treasured resource deeply valued in Māori culture and across communities.

Your mission is to collect as much trash as possible within the time limit to help protect the rivers (awa) and seas (wai-tai). Use the arrow keys (↑ ↓ ← →) or W, A, S, D to steer your vessel. Press the spacebar to collect trash when your vessel intersects with it.Trash floats from the right side of the screen to the left. Each type of trash moves at a different speed and awards a different number of points when collected.

Be quick, be precise, and become a guardian of the water!

Duration: | 60 ▼ | s

Type of trash: | 3 ▼ |
